EDITORIAL

This month's cover picture is Wallace and Gromit

If there is anything that you particularly like or dislike about the newsletter, I would be glad to hear from you.

So, e-mail your thoughts and contributions to chainlinks@uwclub.net, and don't forget that our commitment to the highest journalistic standards means that if I can read it, we'll print it. Photographs, art, and writing are all equally welcome.

If you are planning a ride out and its short notice, put it on our Facebook page, there may be others that are free and would like to join you. It's a great way to meet other members.

Enjoy your riding,

Nick

CHAIRMAN'S CHATTER

This month's Chairman's Chatter will be personally delivered to you as an end-of-year e-mail to all members near the end of the month.

LETTERS TO THE EDITOR

Sheffield Peaks Ride

I pulled my last offer of a ride to the Sheffield Peaks due to lack of interest. I fancy another go at the end of December, one of the dates of Friday 27th, Sat 28th, Sunday 29th or Monday 30th, depending on numbers.

Anybody interested should let me know and we can take it from there.

By the way, Merry Xmas everyone. That's let the cat out of the bag.

Thanks,

Ian Morrison ian.morrison@virgin.net

2019 AGM Draft Minutes

5. Chairman's Report from the AGM

MEMBERSHIP

Once again, another good year for new members and test passes.

In the 12 months up to Nov 1st 44 new members had joined. Once again this is up from last year. The IAM were offering the rider course for £99 at the NEC last year so that attracted 11 new members, we recruited 8 at our open day in April, 6 at the Lincoln BikeFest in Jun and 3 from an event at Rob Speed M/C also in June. At these events we were also able to offer a discount. Clearly discounting works!

27 test passes in past 12 months with 5 being Firsts! We did unfortunately have 1 fail but the test was quickly rebooked and passed.

We currently have 25 associates working towards the test although 6 have tests booked in the coming weeks – good luck to them all. We also have 11 on hold for various reasons but they will hopefully progress through their training next year!

Group membership has once again risen and is currently stands at 153 which is an improvement of 13 on what was reported at the last AGM.

Overall all good news for the Group. New members, passes and size of the membership have all risen gradually over the past 5 years. Interestingly I was looking at some old ChainLincs last night and in 2013 the membership was 85!

OBSERVERS

Our Observers numbers continue to grow. We currently have 8 NO, 12 LO and 2 TO with another one waiting to start training. The Observer team is the strongest I have seen it in the 9 years I have been a member. Without them the Group wouldn't function so many thanks for the time you give providing training for associates, keeping the rest of us in line and continuing your own training. Special thanks to the 4 LOA who have been very busy mentoring the new LOs and also training their own associates and also to Jerry Neale who as well as being an observer has over the past few years coordinated the activities of the observers and provided regular updates on observer activity to the committee and members (through ChainLincs). We have lost 2 Observers this year so thanks to Paul Henseleit and Ian Firth for the time you have put into the group in the past few years.

COMMITTEE

Thanks to all the committee for their hard work and efforts this year as well. Particular mention again to John Cheetham who does so much for the Group in various ways. Also, thanks to Nick who carries on producing ChainLincs – it is just a shame that not all members read it. I must also mention our data manager, Phil Niner. A difficult and laborious job at times which to be honest nobody else wanted – thanks Phil.

If anybody has any ideas on how to help the Group, why don't you join the committee. We are always looking for fresh blood.

EVENTS

There have been a number of ride-outs this year in addition to our monthly rides which have all been well attended. Thanks to those that organised and those that attended.

We attended the Lincoln BikeFest and ran our own open day to promote advanced riding and encourage membership which as I have already said was particularly successful this year. Thanks to all those that helped out those events, we could not have done it without you.

That's enough from me, we have some presentations after the AGM but unless anybody has any comments or questions we will move onto the Treasurer.

ACTIVITIES

Christmas Social

Mick Smith dateline 5th December 2019

Lincolnshire Emergency Blood Bikes Service offer many thanks to Lincolnshire Advanced Motorcyclists for the £70 donation, raised during the IAM group's Christmas raffle 🎄👤

Great to see so many members and partners at tonight's social meeting. Thanks to all those that donated prizes for the raffle and bought tickets raising £70 which we donated to LEBBS this year. Congratulations to those that received their advanced rider course pass certificates.

Christmas Social 2

Mick Smith dateline 5th December 2019

As promised some pictures from the monthly social meeting last night. There were around 31 members and partners so quite tight in the room we use so spilled out into the hallway! Thanks to Mr and Mrs Battram for organising and running the quiz - some interesting questions.

We presented certificates to Perry Martin, Trevor Nuttall, Iain Hammond, Shaun Parfitt and Barry Housley. Well done to you all and your Observers Mike Day, John Harrison, Jeremy Neale, Morris Howe and Kev Smith.

Perry and Barry also achieved a F1rst pass.

Group ride today from Hartsholme Park

Mick Smith dateline 8th December 2019

Fourteen riders turned up for the group ride today from Hartsholme Park including three observers, two associates and a guest. Thanks for coming and thanks to Dave Hall and Harry Roberts who led a group each across roads south of Lincoln meeting up at the café at Byards Leap café near Cranwell for bacon butties and tea. Sorry Simon, no pictures of cake and sausage rolls! Great ride guys and have a great Christmas.

News from 1927

Roland Johns dateline 10th December 2019

A Scott Flying Squirrel and a Big Port AJS (Alan Pugh), or some type of BSA, Matchless, or Royal Enfield side valve Vee-twin (Dave Walker)

Simon Battram adds "It looks like my great grandfather who was in the TT races. He had a garage at Messingham. That's not far from that sign post if you are on a cake search test ride 🍰👍"

DIARY OF EVENTS

The Sunday morning Group Observed Runs are open to all members and also potential members who may be considering preparing for the IAM test.

The prime purpose is to provide the opportunity to hone /improve skills through riding with fellow members.

Potential members considering taking the IAM test may have an individual assessment ride.

Runs last usually around two hours, often with a mid-point refreshment stop.

Depending on numbers / balance etc., it is customary for different groupings to embark on a run style of their choice as they feel fit.

The main purpose is to have the opportunity to ride with fellow like-minded bikers.

The starting points are as shown below:

- Ancholme Leisure Centre, Scawby Brook, Brigg, DN20 9JH South side of A18
- Willingham Woods Picnic Site, LN8 3RQ East of Market Rasen A631
- Hartsholme Country Park Cafe, Lincoln, LN6 0EY South side of B1378, Skellingthorpe Road

Group Social Runs will incorporate café stops unless an alternative is specified. Please try to arrive at the meeting point in good time and with a full tank of fuel. Please let the run organizer know if you want to invite a guest. If carrying a pillion passenger, you should ensure that they are covered by your motorcycle insurance policy.

It is you, as the rider who is deemed to be in control of your motorcycle at all times during an observed or social run.

OBSERVERS AND ASSOCIATE INFORMATION

Observer Meeting

The last monthly meeting of 2019 for Observers at the office of Emprocom, saw many members of the team working together on various subjects and scenarios regarding Observer work throughout the evening. Local Examiner Ross Glover Joined the team during the evening to give feedback regarding the Advanced test and added areas for possible improvement. Many members of the team are still out on the road working hard with Associate's test preparation runs. Many skills can be gained by continuing to ride throughout the winter months. Rap up warm and get out on your bike.

To become proficient as an Advanced rider it is important that you continue to practice your Advanced riding skills. This is relevant at any level, Associate, Full member, Observer, Fellow, Masters, the learning never stops. On your next ride out take time to self-analyse your ride. Ask yourself, am I riding at an Advanced level? Could I have done something different to improve my ride? You might find that there is some room for improvement.

If you want to join the Observer team and work towards the IMI Local Observer qualification, give me a call to find out more on 07412935333

This month the Observer team would like to welcome Iain Hammond to the team. Iain will be working towards the IMI Local Observer Qualification. The team would also like to congratulate Allan Knight on achieving the IMI Local Observer Qualification.

Road signs and markings

Part of our Information stage of IPSGA is broken down into Take, Use and Give of that information. We take information in via several different ways, be that sight, sound or smell. Early observations of road signs is vital to making our riding plans. Road signs and markings warn of approaching hazards and give instructions and information about road use. Use your observation skills to read the road and link the signs to the hazards ahead, especially at night.

Make the best possible use of road signs and markings:

- **Observe**-actively search for road signs and markings in your observation scans and incorporate the information they give you into your riding plan as soon as possible. Many riders fail to make use of them and lose valuable information.
- **Understand**-be able to recognise them immediately. You should be familiar with current editions of the *Highway Code* and *Know your Traffic Signs*.
- **React**-react to a sign or marking by looking ahead to what it refers to and building the information into your riding plan. Where the sign or marking refers to an unseen hazard, anticipate the hazard and adapt your plan accordingly.

Unofficial road signs such as 'Mud on Road', 'Car Boot Sale' and 'Concealed Entrance' can also help you anticipate the road conditions ahead.

Our saying "In the distance what can I see" is also vitally important to our information stage, as sometimes the sign might not be as it should. Take a closer look at this scene, at first glance, does the sign match the road layout ahead?

The Road paint with the 'throw back arrows' and the lane dividing road paint can give clues when the road sign might be damaged, faded or missing.

If you can't get out on your bike due to winter weather, then use that time in front of the fire, with your *Highway Code* testing your Road sign knowledge.

It was great to see many full members and associates at the LAM Sunday morning Observed run this month, looking to keep their riding standards high.

The LAM Sunday morning Group ride out is a great opportunity for associate members to get in some extra riding practice before their Advanced test. At the Sunday morning ride, you will usually find many Observers and Full members who have got a vast knowledge and experience of Advanced riding who are always willing to assist others to achieve test standard. It is also another opportunity to practice the work that you have been doing with your Observer. We have three areas of the county covered, so take a look in the events diary and plan your next Sunday morning Group ride! Add it to your New Year's resolution to try and get to as many

Sunday morning rides as you can throughout the year, its a great opportunity to upskill and meet more members of the group.

Merry Christmas and a Happy New Year from all at the LAM Observer Team.

Jerry
